

Suanh Sawm Tung (Augustine)

Software Developer · Full-Stack Web & Mobile

SUMMARY

I am a passionate software developer with about 2 years of experience. Through my working experiences, I gained expertise in building complex web applications using **JavaScript**, **TypeScript** for frontend, and **PHP**, and **Node.js** for backend development. Generally, I am familiar with SQL databases like **MySQL** and **PostgreSQL**. I have had on-site and remote experiences and have soft skills like teamwork, communication, and problem-solving.

PROFESSIONAL EXPERIENCE

Freelance Web Developer

- Developed and maintained various web applications, including a Learning Platform, collaborating with my friend.
- Contributed to building and launching SaaS applications with the support of marketing professionals.
- Played a key role in development by primarily utilizing TypeScript, Node.js, Laravel, React.js, Vue.js, and Prisma.

Full-Stack Developer, Creative Coder Myanmar

August 2023 ~ March 2024 (8 months)

Yangon, Myanmar ~ On-site

- Contributed to performance optimization, design updates, and functionality enhancements for an educational platform.
- Utilized Laravel, Inertia.js, and Vue.js for feature development and improvements.
- Led, managed, and guided best practices and project tasks to new internship developers.
- Maintained the existing codebase and added test cases using Cypress to ensure code quality and functionality.

Software Developer, 株式会社 革新技術 (Kakushin Gijyutsu)

December 2024 ~ July 2025 (8 months)

Osaka, Japan ~ Remote

- Contributed to the development of landing pages, web applications, and mobile applications, focusing on frontend design implementation.
- Worked mainly with Next.js for web and React Native (Expo) for mobile, and integrated backend services using Supabase and microCMS.

EDUCATION

- High School Graduate, B.E.H.S (4) Thaketa, Yangon, Myanmar
- 2016 ~ 2020 - Enrolled at TTU (Thanlyin Technological University) in 2016 and completed coursework up to the fourth year. Currently, taking a break from my studies due to the impact of COVID-19 and the political situation.
- Enrolled in the Bachelor's degree program in Computer Science at the University of the People, but discontinued studies due to financial issues.

SKILLS

Soft Skills

Teamwork, Communication, Problem Solving, Adaptability, Eager to learn new technologies

Programming Languages

JavaScript, TypeScript, PHP

Frontend Web Frameworks

React.js, React Native, Next.js, Vue.js, Tailwind CSS

Backend Web Frameworks

Laravel, Node.js, Express.js

Databases & Backend Services

MySQL, PostgreSQL, Supabase

Others

Git, Cypress, Rest API Implementation

PROJECTS

Kakushin Gijutsu (<https://www.kakushin-gijutu.com/>)

- Developed during my recent job to showcase the company's works and services.
- Built with Next.js, Tailwind CSS, TypeScript, and microCMS for content management.
- Includes pages for services, works, blogs, and contact information.

My Care Credit (<https://mycarecredit.org/>)

- Develop in collaboration with a friend to serve volunteering organizations.
- SaaS platform with multitenancy support, utilizing React.js, TypeScript, Zustand, Node.js, Express.js, TanStack Query, Yarn Workspace, Prisma, and PostgreSQL.
- Enabled organizations to create websites with unique subdomains, post volunteering events with detailed information, and allow users to easily find and participate in events that suit them.
- Implement a credit score system where organizations can assign credit scores to participants, enabling users to track their participation history through their account's credit score.
- Successfully secured and currently managing service contracts for Malaysian clients, including [JPSCC](#) and [ADFM](#) via the MyCareCredit platform.

Creative Coder Myanmar (<https://creativecodermm.com/>)

- Contributed to the project during my time at Creative Coder Network.
- Performance optimization, design updates, and functionality enhancements were my main contributions.
- Used Vue.js, Laravel, and Inertia.js in the project.

Executive Club (<https://www.executive-club.app/lp>)

- [Android link](#)
- Executive Club is a Japanese dating Android app for women, offering safe encounters with carefully screened high-income men who pass a strict selection process.
- Used React Native (Expo), Tamagui UI, and Supabase in the project.
- Mainly contributed to both frontend design implementation and backend service integration.

LANGUAGES

- English (B2)
- Burmese (Native)
